

Year Six Curriculum Newsletter

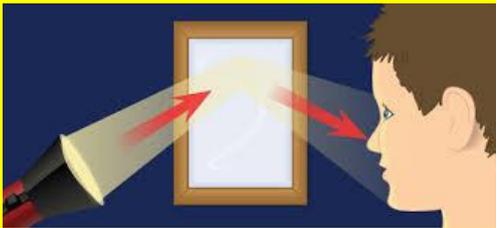

Dear Parents/Carers,

Spring Term has started differently to how we may have anticipated, however I must commend those pupils still in school and also those accessing learning online for their dedication, resilience and hard work so far this half term – well done to all! This term we will persevere with our learning and continue to adapt to new online methods too. If anybody has any concerns or queries please do not hesitate to contact me.

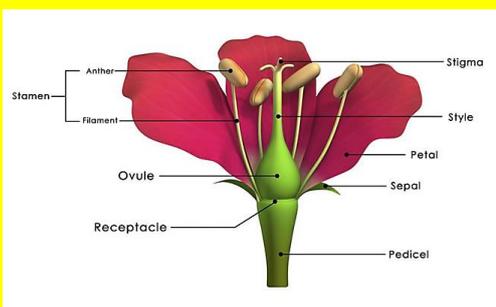

Mrs Anderson

Our **Science** topics this term will be light and Living Things and their Habitats.

Children will investigate how light travels, how we actually see things and also how shadows are formed.

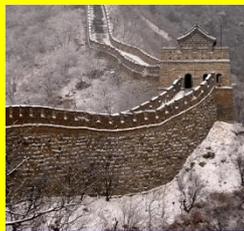

Furthermore, we will study the life cycles of certain animals and of plants too.

Our Topics this term:

ANCIENT CHINA

What was the Shang Dynasty? Why was Emperor Qin so demanding? What did Ancient Chinese people invent?

RAGING RIVERS

Where do rivers come from? Where do rivers go? What is the world's longest river? Which species inhabit rivers?

How can you support your child's learning at home?

- Encourage your child to access Reading Plus (our online reading programme) two to three times per week.
- Online learning is set via Google Classroom DAILY for those not in school.
- Encourage your child to read at home as much as possible.

PE

NUF will be providing a 'games' based curriculum for now.

RE

We will be looking at Jewish and Buddhist beliefs.

MUSIC

Our focus will be rhythm and notation.
